

FOR ATHLETIC DIRECTORS AND COMPLIANCE

The only agency-platform connecting Hispanic college athletes to national brands across every sport at no cost to your program

100+

Universities

1,100+

HSAs in Network

22

States Active

YOUR HISPANIC STUDENT-ATHLETES ARE ACROSS THE ENTIRE PROGRAM

Football. Basketball. Soccer. Baseball. Track. Wrestling. Volleyball.

REVENUE SPORTS

- Hispanic players are on your football and basketball rosters... athletes with direct cultural reach into the \$4T Hispanic market.
- Your revenue-sport sponsors have separate multicultural budgets not being activated through your program. We change that.

NON-REVENUE SPORTS – OUR DEEPEST LANE

- ~38,654 NCAA HSAs in 2024-25, up 62% over 10 years. The majority in soccer, baseball, track, volleyball, and wrestling.
- Revenue sharing directs 85-90% to football and basketball. Commercial NIL is these athletes' only earning path – no one built the infrastructure until now.

Your HSAs Are Watching.

These athletes arrived on your campus as celebrated members of their communities. When your program has no NIL structure for them, they notice...and so do their families. That shapes your reputation with every Hispanic recruit and family you meet.

Your Competitors Are Moving.

Programs that move first will use structured HSA NIL support as a specific, verifiable recruiting tool. Programs that wait won't be able to. The window to be a first-mover is open, but it closes as more programs join.

THREE LEVELS OF ENGAGEMENT: WE RUN THE PROGRAM, YOU GET THE CREDIT

No additional staff. No compliance burden. No budget required to start.

LEVEL 1

Free – Start This Week

Network Partner

We add your school to the ÑIL Hispanic network at no cost. Your logo appears in ÑIL Hispanic marketing materials as an Official Network Partner.

Tell HSA recruits: 'We have a dedicated NIL platform for our Hispanic athlete, and national brands are already looking.' No program can say that without us.

- ✓ HSAs create a profile; we review and reach out when a brand campaign fits
- ✓ Official Network Partner designation
- ✓ Your logo on NILHispanic.com and our sales & marketing materials

No cost to the university

LEVEL 2

Paid Engagement

Hispanic NIL Advisory

We work directly with your HSAs across all sports and your staff. Structured, school-specific advisory built around who these athletes are.

- ✓ 1-on-1 HSA onboarding: NIL education, compliance walkthrough, family briefings
- ✓ Brand fit assessments by sport (revenue and non-revenue)
- ✓ Coach + compliance workshops on Hispanic cultural dynamics and NIL
- ✓ HSA community-building: networking, mentorship, career touchpoints

From \$25,000 / year (tiered by HSA roster)

LEVEL 3

Revenue Generating

Co-Branded Campaign Partner

Your marks appear in brand campaigns creative alongside your HSAs. Revenue flows to your athletic department.

- ✓ University marks in brand campaign creative and materials
- ✓ School receives campaign activation fee per engagement
- ✓ Royalty on school-attributed NIL revenue (rate agreed in writing)
- ✓ ÑIL Hispanic manages all brand relationships, compliance, and activation

Revenue flows to your athletic department

WHAT ÑIL HISPANIC DELIVERS THAT NO ONE ELSE CAN

No general NIL platform, agency, or agent has built what we have built exclusively for Hispanic student-athletes.

Exclusive HSA Identity – Not a Feature, the Entire Model

Every NIL platform treats Hispanic athletes as a segment. We are organized entirely around Hispanic cultural identity as the product. That infrastructure took years to build and cannot be replicated.

All Sports, All Divisions – Revenue and Non-Revenue

Football, basketball, soccer, volleyball, baseball, track, wrestling. The only structured HSA network spanning revenue and non-revenue sports across all divisions.

Relationships with Top Brands in Major Category

CPG, financial services, automotive, apparel, QSR, and telecom – active brand relationships your HSAs can't access through any other NIL channel.

The Decade-Defining Event Window Is Open Now

FIFA World Cup 2026 (U.S./Canada/Mexico); FIFA Women's World Cup 2027; LA28 Summer Olympics; women's sports, flag football, and more.

Hispanics will drive 1 in 3 dollars of U.S. sports market growth through 2035

A Permanent, Searchable HSA Asset for Your Program

Every HSA profile is a documented, reviewable asset. When brands target your school's Hispanic athletes across any sport, your program has infrastructure. Without us, it does not exist.

First-Mover Status Before the Market Consolidates

Early partner schools receive preferred logo placement and a seat at the table as we build the conference-level partnership model.

OPPORTUNITIES YOUR CORPORATE DEVELOPMENT TEAM CAN'T ACCESS ALONE

New inventory to bring to existing partners while also unlocking Hispanic marketing budgets that haven't been accessible before. We're your entry point.

The Opportunity

Your corporate sponsors budget their general athletics dollars to your program. We provide new inventory to bring to those same partners. Now your university can deliver Hispanic audience reach through your HSAs.

Additionally, most sports sponsors carry a separate multicultural marketing budget managed by a different team with different KPIs. We unlock that too.

ÑIL Hispanic is the structured pathway into AD budget expansion.

How We Work With Your Team

- 1** We map your existing brand sponsor relationships against our active brand pipeline to identify multicultural budget overlap.
- 2** We work with your corporate development team to the right budget owners inside those brands; the multicultural marketing leads in addition to the general sponsorship team you know.
- 3** We structure a co-branded HSA campaign against the multicultural budget. Your program earns an activation fee and royalty. Your HSAs earn NIL compensation.

This is additive and does not replace or compete with your existing corporate sponsorship relationships. It opens a new budget line that wasn't accessible before.

The Market Your HSAs Unlock

Why brands need your Hispanic athletes...and why the schools that act now are the ones winning

71M

U.S. Hispanics – largest minority, fastest-growing consumer group

\$4T

Hispanic purchasing power – 5th largest economy if standalone

72%

of Hispanic sports fans are Gen Z or Millennials

63%

of Hispanics want content reflecting their cultural identity

\$45B

dollars of U.S. sports market growth through 2035 attributed by Hispanics

+70%

growth in Hispanic student-athlete participation over last decade

Two Things We're Asking For Today

1

Encourage your HSAs to create a free profile

No university has a dedicated NIL platform for Hispanic student-athletes. We do. Direct your HSAs in every sport to NILHispanic.com. Free, takes minutes. Your coaches immediately gain a recruiting tool other programs can't offer without a partnership with us.

2

Schedule a 30-minute discovery conversation

Let's identify your HSA roster across all sports and map World Cup 2026 and LA28 opportunities. Brands are building multicultural rosters now and programs without HSA infrastructure will be locked out.

anthony@nilhispanic.com | nilhispanic.com

Programs that visibly support their Hispanic student-athletes in NIL are winning. Programs that don't are sending a message whether they intend to or not.
